

Your Cargo in Safe Hands

“Sharjah Airport has been historically described as one of the main cargo hubs in the region due to its strategic location and the two coastlines on both east and west of the country.

The unique geographical positions of Khor Fakkan Port in the east on Sharjah’s Indian Ocean coast, Hamriyah Port on the west on the Arabian Gulf, and Port Khalid in Sharjah city along with the dedicated corridors connecting these ports with Sharjah Airport ensure it is a thriving hub for sea-Air cargo”.
