

Live Honeybees handling

Sharjah Airport provides bespoke services for cargo flights dedicated to carry live honeybees.

- Due to time-sensitive nature of these shipments, honey bees are being delivered directly to the Consignees upon flight arrival with import clearance prioritized.
- Well-trained staff to handle this type of time-sensitive shipments.
- Express transportation of bees, starting with air traffic control awarding the shortest taxiway possible on ground to the nearest aircraft stand to the animal quarantine and then to the exit gate.
- Honey Bees shipment into UAE is coordinated with the various stakeholders at the airport (Sharjah Aviation Services, Ministry of Climate Change & Environment, Sharjah Municipality and Sharjah Customs) to conduct all applicable processes and tests to ensure swift clearance of shipments.
